PERFORMANCE PRE-FINISHED STEEL

Why choose envioPRIMS Prefinished Steel from ASTEEL?

- ✔ ASTEEL is wholly own subsidiaries of YKGI which is listed in Bursa Main Market
- ✔ Produced with Japanese Advance Technology
- ✔ Complied with SIRIM Product Certification
- ✔ Certified under CIDB Akta 520
- ✔ Meets International Building Standards
- ✔ Product performance is field tested
- ✔ Peace of Mind with Manufacturer's Warranty to Customer

To make sure your products is from ASTEEL, look for envioPRIMS brand mark.

Features

- ✔ Consistent performance economically
- ✔ Improved corrosion resistance
- ✔ Bending ability for all profiles
- ✔ Improved colour retention
- ✔ Improved gross retention
- ✔ Variety standard colours

Improved Corrosion Protection Improved Durability-AZ150

The pictured sample was the result of 500hrs Salt Spray Test ASTM B117.

Minor oxidisation was observed at the exposed edge.

For more than a quarter of a century, GaluZinc has demonstrated its outstanding resistance to atmospheric corrosion. This is the result of the combined action of aluminium and zinc.

GALUZINC

Stands for aluminium and zinc, fused in almost equal proportions to coat the steel sheet with a unique silvery spangle, composed of aluminium (55%), zinc (43.5%) and a touch of silicon (1.5%) to achieve perfect harmony with the steel. The result is a combination of the strength of steel, the protection of zinc and the stability of aluminium, GaluZinc is an outstanding product in every way, respecting both the environment and the "natural beauty of steel... forever".

Performance Pre-finish Steel

envioPRIMS is pre-finished steel, a smart solution that provides consistent performance economically in wide variety of exterior decking or interior ceiling and paneling application. envioPRIMS is developed with comprehensive colour selections to accommodate variety of creative ideas and distinct uniqueness in building designs.

With the new and promising warranty that lasts up to 15 years*, envioPRIMS is made in compliance with the current stringent requirements of building materials specification.

Major Usage

Roll Form Roofing Sheets for Residential, Commercial and Industrial Roofing. Wall Cladding, Metal Tiles for Residential Roofing, Rain Gutters, Flashing, Fascia Board, Signboard, Roller Shutter & etc.

Wall Cladding

Steel Roof
