A MESSAGE :
from CHAIRMAN & MD of ASTEEL GROUP

Dear all,

First and foremost, let me take this opportunity to wish everyone a Happy New Year. I am glad to be given this opportunity to contribute to this first issue of Ripples for 2020.

Looking back, 2019 is indeed a very challenging year for us all, however it is a great year, as far as achieving our target is concerned. I sincerely thank everyone for the extra hours, endless dedication and all the support rendered for this great performance accomplished in 2019.

Moving forward, as an ASTEELER, we should be feeling proud of ourselves. I would like to see all ASTEELERS work more closely as a team as Henry Ford famous quote “Coming together is a beginning, Keeping together is progress. Working together is success”.

We as a team should strive for sustainable growth, continuously looking into new products and technologies. Constantly provide valuable and affordable products and services to our valued customers. Therefore, everyone is responsible to improve their personal performances and constantly upgrading oneself by adapting to the changing working environment.

We should also move forward as a family, as ASTEEL has always instil family culture as our core values – growing and developing as a jolly family together. I firmly believe and have confidence nothing is impossible for us, together we can and we will achieve our company VISION & MISSION!

Sincerely Yours,
VICTOR HII
