STAY FRESH AND COOL

Why choose envioClean® from ASTEEL?

- ✓ ASTEEL is wholly own subsidiaries of YKGI which is listed in Bursa Main Market
- ✓ Produced with Japanese Advance Technology
- ✓ Complied with SIRIM Product Certification
- ✓ Certified under CIDB Akta 520
- ✓ Meets International Building Standards
- ✓ Product performance is field tested
- ✓ Peace of Mind with Manufacturer's Warranty to Customer

Improved Heat Insulation

ThermoFLEX® technology can be an effective way to reduce the energy load of your building, by reflecting heat away from your building, thus cooling energy costs reduced, as well as potentially reduce emissions from electricity generation.

NINE FEATURES IN THIS PRODUCT

CLEAN TECHNOLOGY - Improved Dirt Resistance

envioClean® Self Cleaning Steel is a premium coating system specially formulated to resist tropical stain. The main characteristic is the high surface hardness with wash ability, which resist dirt and particles from being bonded to the surface and easily being washed by rainfall, thus providing timeless freshness and minimum maintenance.

2 Years Exposure at 45° South Facing, Shah Alam, Malaysia.

Improved Durability-AZ150

For more than a quarter of a century, GaluZinc has demonstrated its outstanding resistance to atmospheric corrosion. This is the result of the combined action of aluminium and zinc.

GALUZINC® Silvery Trendy Steel

Stands for aluminium and zinc, fused in almost equal proportions to coat the steel sheet with a unique silvery spangle, composed off aluminium (55%), zinc (43.5%) and a touch of silicon (1.5%) to achieve perfect harmony with the steel. The result is a combination of the strength of steel, the protection of zinc and stability of aluminium, GaluZinc is an outstanding product in every way, respecting both the environment and the "natural beauty of steel... forever".

Improved Weathering Resistance

envioClean optimised formulation using super durable paint system make it an ideal choice in the following aspects:

- Longer-lasting colour
- Higher gloss retention
- Stronger delamination resistance
- Better chalking resistance
- Superior stain resistance
- Higher elasticity for flexible forming

(4 YEARS SUB-TROPICAL EXPOSURE)

*SRI = Solar Reflectance Index

Note: The colours shown in this brochure are as close to the actual colours, however, please check the chosen colours against the actual sample of products before purchasing.
