- ✓ Variety standard colours

PERFORMANCE PRE-FINISH STEEL

 is pre-finished steel, a smart solution that provides consistent performance economically in wide variety of exterior decking or interior ceiling and paneling application.  is developed with comprehensive colour selections to accommodate variety of creative ideas and distinct uniqueness in building designs.

With the new and promising warranty that lasts up to 15 years*,  is made in compliance with the current stringent requirements of building materials specification.

MAJOR USAGE

Roll Form Roofing Sheets for Residential, Commercial and Industrial Roofing.
Cladding, Metal Tiles for Residential Roofing, Rain Gutters, Flashing, Fascia Board, Signboard, Roller Shutter & etc.

Wall Cladding

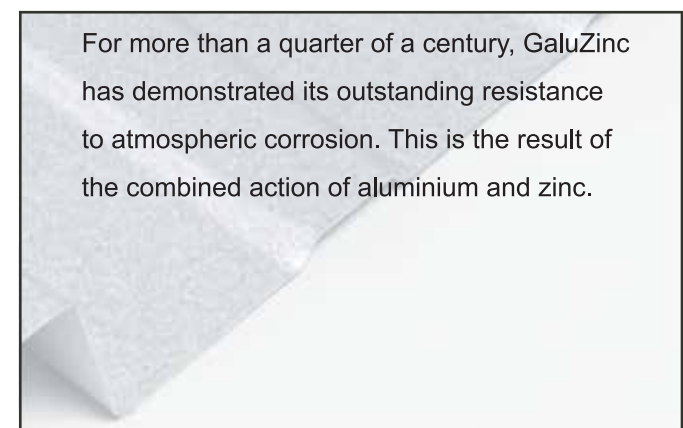

Steel Roof

IMPROVED CORROSION PROTECTION

The pictured sample was the result of 500hrs Salt Spray Test ASTM B117.
Minor oxidation was observed at the exposed edge.

IMPROVED DURABILITY-AZ100

For more than a quarter of a century, GaluZinc has demonstrated its outstanding resistance to atmospheric corrosion. This is the result of the combined action of aluminium and zinc.

 SILVERY TRENDY STEEL

Stands for aluminium and zinc, fused in almost equal proportions to coat the steel sheet with a unique silvery spangle, composed off aluminium (55%), zinc (43.5%) and a touch of silicon (1.5%) to achieve perfect harmony with the steel. The result is a combination of the strength of steel, the protection of zinc and stability of aluminium, GaluZinc is an outstanding product in every way, respecting both the environment and the “natural beauty of steel... forever”.
