- ✓ Peace of Mind with Manufacturer's Warranty to Customer

Improved Colour Retention

ASTEEL utilises optimum paint formulation and inorganic pigment blends to provide excellent long term colour stability for envioTEX steel products, gives you a building that lasts longer through enhanced chalk resistance properties that offer a higher resistance level to paint breakdown that happens so often in Asia's hot climate.

Features

- ✓ **Texturous and Luxurious Feel**
- ✓ **Supreme Facade**
- ✓ **Better Formability & Flexibility**
- ✓ **Superior Scratch Reistance**
- ✓ **Lower water permeability**
- ✓ **Illusive Soft-Feel Interior Envelope**

Improved Durability-AZ 150

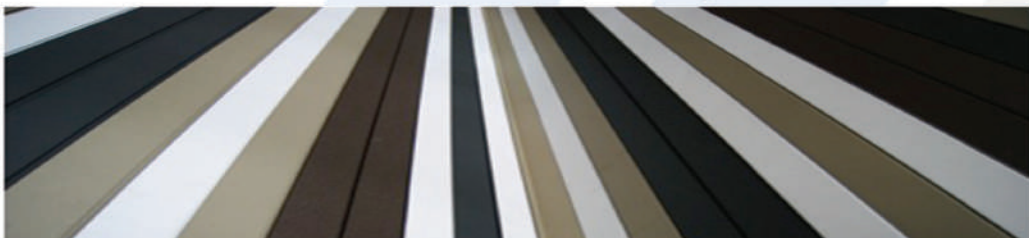

For more than a quarter of a century, GaluZinc has demonstrated its outstanding resistance to atmospheric corrosion. This is the result of the combined action of aluminium and zinc.

GALUZINC

Stands for aluminium and zinc, fused in almost equal proportions to coat the steel sheet with a unique silvery spangle, composed of aluminium (55%) and a touch of silicon (1.5%) to achieve perfect harmony with the steel. The result is a combination of the strength of steel, the protection of zinc and the stability of aluminium, Galuzinc is an outstanding product in every way, respecting both the environment and the "natural beauty of steel...forever".

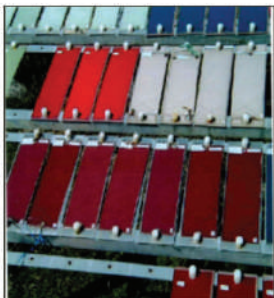

Rough Technology

envioTEX is the revolutionary textured steel that provides elegant finishing for many application especially panel and facade. With many of the contemporary architectural design desired for stylish sheen envelope, envioTEX steel has a few modern colour selections to accomplish the design needs.

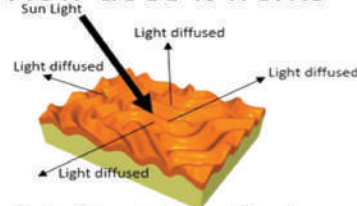

envioTEX steel is engineered to be ultra-durable for its painted finishing. As compared to other painted steel, envioTEX steel has very good colour performance and improved scratch resistant.

Research & Development

The proprietary paint system is a result of extensive R&D testing, including actual field exposure testing. It has been proven that the paint system used for EnvioMatt steel provides superior durability against weathering and UV penetration when compared with other prepainted steel.

How does it works

Light diffuse to different direction, which naked eye perceived as matt and elegant finishes.

Silky White

Silky Beige

Silky Brown

Silky Black
